We use our screw off top wet core bit barrels or dry barrels mounted with carbide to drill thru wood. They do an excellent job of drilling thru wood. In a timed drilling, using a 3" bit, it took 3 minutes to go thru 4" of stringy cottonwood.

This bit must be run dry.

Prices are subject to change without notice due to freight and inflation costs.
We reserve the right to ship next higher quality product if we are out of stock.
