CORE BIT ADAPTERS

5/8 - 11 to bit      66.00      5811bit

We invented this adapter so you can start a dry bit without it 'walking' around, especially on a vertical wall

Starter Bit      44.00      9.5srtbt

We use a tapered bit depending on the depth of the bit and it easily slips into the above adapter and is easily removed.

1 1/4" to bit      99.00      11/4bit

We invented this adapter also with the same idea as above, only for a wet bit – no 'walking' around on the wall.

Starter Bit      66.00      20srtbt

We use a tapered bit. A standard 14" bit is the maximum barrel length that we can use this system on. Longer tapered bits can be manufactured if need be.

Prices are subject to change without notice due to freight and inflation costs.  
We reserve the right to ship next higher quality product if we are out of stock.
