

LIGHTWEIGHT SPOKEBACK TUBES

Water distribution system designed for maximum water disbursement

Splash Shield with plugged inspection holes

Lightweight Spokeback System

Lightweight Inner Ring

Precision Rolled Tube

Conquer Diamond's lightweight Spokeback tube provides an extremely rigid and lightweight design for jobs with a requirement of 10" to 66" diameter and lengths up to 10 feet.

Spokeback Weight Difference vs. Standard Tubes

Size	% Lighter	Spokeback Weight	Standard Weight
18"	22%	64	82
24"	27%	94	128
30"	37%	119	189
36"	29%	176	249
42"	34%	210	319
48"	38%	245	396

Inspection holes make it possible to view the inside of the tube without having to remove the back. When needed, the splash shield and Spokeback can be easily disassembled by removing the button head cap screws.
