8" x 1 1/4-7	217.00	363.00	-----	580.00	cdtpcb800

Conquer's 3 piece corebit comes in three pieces: segment head, tube and top adapter. Instead of replacing the entire core bit, replace only the segment head when it wears out. 'Seven' segment heads available. Core bit is lengthened by screwing 12" barrels together, as many as you need. Labor saving **innovation!** Premium. Competitions bottom is 14" long, that is totally wrong, no savings there. The most important part of all this we know how to put them together and take apart. We know of no other company that know's this.. We are innovators in this market, and we will save you time and money. See CB-18
