Conquer's 3 piece corebit comes in three pieces: segment head, tube and top adapter. Instead of replacing the entire core bit. Replace only the segment head when it wears out. **'Seven'** segment heads available. We now have more types of crowns than any other company in the entire world. We are the KING of core bits with crowns. We don't show them all because we have too many copy cats in this world. You have a problem we can solve it. Core bit is lengthened by screwing 12" barrels together up to 100' Labor saving **innovation!** Still the same quality as our other premium and supreme core bits. Possession of this price sheet does not obligate us to sell to you.
