\* available wet only

These are premium tile blades. To be used for porcelain and or ceramic. We stock one blade rather than several ... which makes ours cheaper in the long run.

However, we can special order cheaper tile blades if needed.

When you compare us to other companies, remember that you are getting a "DRY" blade that will cut either wet or dry.

Very important because a wet only blade will not produce the life these two blades will and lastly the segment heights we sell are higher than the cheapies.
