14" x 400 x 500 x 1	1597.00	cdg14500

All above blades are laser welded and designed for EARLY entry of green concrete. These blades are designed specifically for this purpose – correct time of entry is critical. Blade clearance problems may require half sizes.

The true cost of your blade is the inch feet the blade cuts vs the cost you pay for it. We feel our blade is one, if not the best, values on the market today. Yes there are cheaper blades, so we just told you that is what you get. ½ the footage for more than half the price. No value in that. You have to figure your labor changing the blade.

Our Bit N Blade Extender will double the life of the blade.

Prices are subject to change without notice due to freight and inflation costs.  
 We reserve the right to ship next higher quality product if we are out of stock.
