35 to 65 hp laser welded. These are asphalt blades and they have full radius core protection. Professional quality.

We do not stock a low end blade. Why, when you can buy a top of the line Professional blade for about the same price? Some of these blades we use for cutting "GREEN" concrete. Cause we know how to save money and less inventory.

Prices are subject to change without notice due to freight and inflation costs. We reserve the right to ship next higher quality product if we are out of stock.
