Blade looks like 'red' blade on previous page but looks can be misleading. In the case of this blade, customers wanted a 'red' blade but didn't want to pay the price. So we have a 'yellow' blade that cuts the same products but the price is lower. Does this bade measure up? Yes for the price it does a remarkable job. Your not going to get the life under certain conditions, but for the average JOE it does just fine.

Tele-marketers would tell you it's the same blade and charge you the higher price. Not us, we tell you the truth. That way both of us are happy.

Prices are subject to change without notice due to freight and inflation costs.
We reserve the right to ship next higher quality product if we are out of stock.
